

CFPUA Portable Water Station

Since CFPUA opened for business in 2008, we have received numerous requests for donations of water to help serve a variety of community events. In the past, we fulfilled these requests using cases of *Cape Fear Clear*, water from our award-winning Sweeney Water Treatment Plant bottled for convenience.

Due to the environmental impact of using plastic bottles, we have replaced the bottled Sweeney water with a new, portable station that provides cold, refreshing water to community events staged in close proximity to one of our water hydrants. We can now serve even more people at fairs, races, tournaments, charity functions or any other event wherever drinking water is wanted.

The FREE water is exactly what comes out of your taps at home; it comes from our two state-of-the-art water treatment plants: our Sweeney plant and our Nanofiltration Plant in Ogden. For the last six years running, CFPUA's water has received awards for its high quality.

To begin the reservation process, simply fill out the form and send to Leslie Ogilvie with CFPUA at leslie.ogilvie@cfpua.org.

CFPUA Portable Water Station Application

CFPUA's portable water station provides fresh, clean, award-winning water to community events throughout our service area in the City of Wilmington and New Hanover County. It can serve six people at a time and, with just one step up, it can quench any kid's thirst.

Requests to use our water station are processed on a first come, first serve basis. CFPUA staff will operate the station during your event. Simply fill out the application below with details about your event and CFPUA staff will contact you. Applications can be sent via email to Leslie Ogilvie with CFPUA at leslie.ogilvie@cfpua.org.

Please call to confirm receipt of your request by contacting Leslie at (910) 332-6625.
